A Few Severe Storms West Late Saturday

Squall Line Weakens as it Moves East Overnight

Weather Forecast Office
Fort Worth, TX

Issued March 11, 2021 4:10 AM CT

Saturday Afternoon/Evening

Overnight Saturday/Sun Morning

A few severe storms should develop west of the area Saturday Evening.

Storms will weaken as they move east overnight.

weather.gov/fortworth

Considerable cloudiness with windy and warm conditions can be expected once again today. A few peeks of sunshine may sneak through late in the day. A few light showers are possible east of I- 35/35E and north of Highway 380/I-30 this morning. Only spotty light amounts under a tenth of an inch are expected. Otherwise, look for highs to be mostly between 75 and 80 degrees with south winds 15 to 20 mph and gusty.

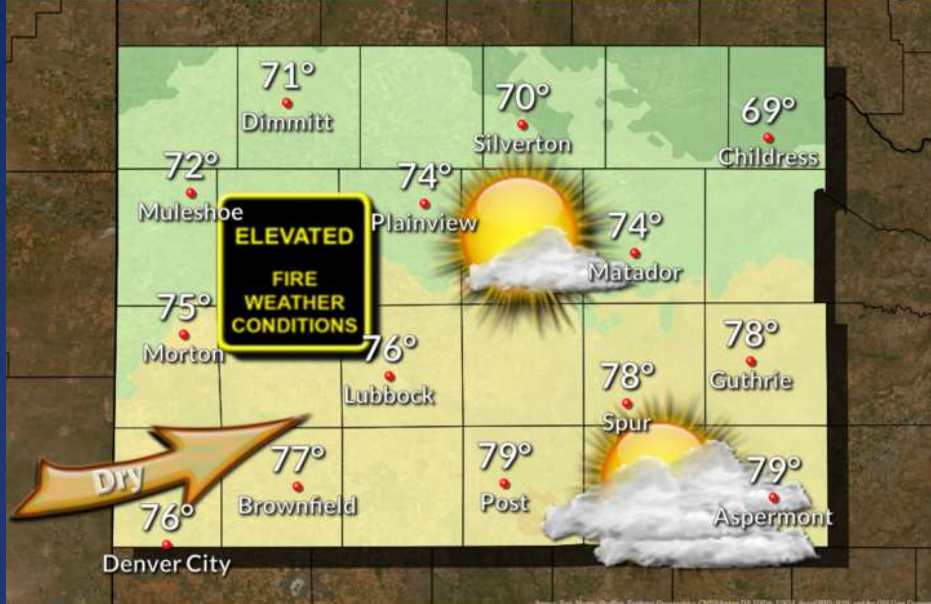

Scattered thunderstorms are expected to develop late Saturday to the west and move eastward as a squall line overnight. It is possible some of these storms will be severe initially, but the line should weaken as it moves across North Texas. Continue to monitor the forecast in the coming days. Make sure you have multiple ways to receive warnings!

Hazardous Weather

Warm Temperatures Thursday

Elevated fire weather on the caprock

Weather Forecast Office
Lubbock, TX
Issued Mar 11, 2021 1:50 AM CST

f t NWSLubbock

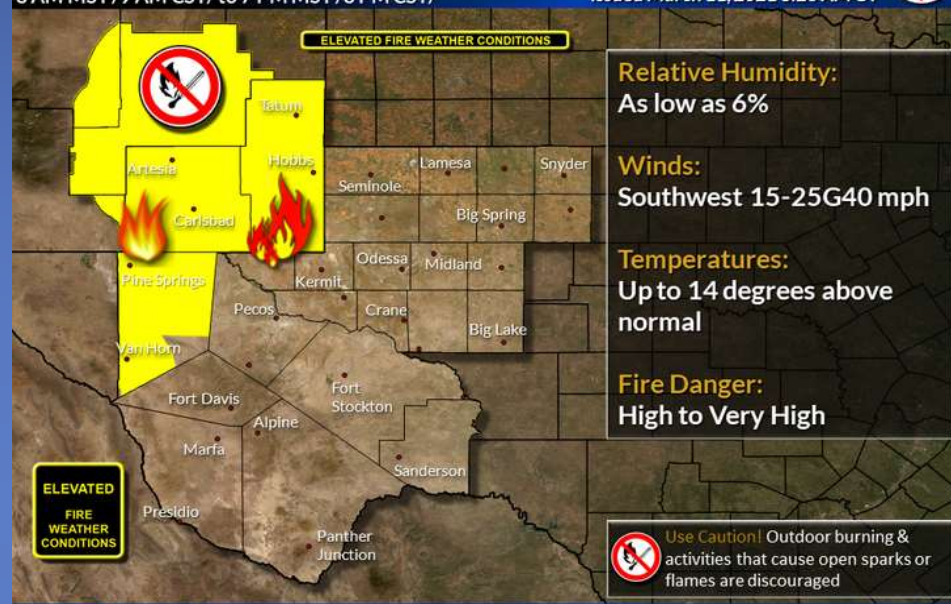

weather.gov/lub

Thursday will be partly cloudy and warm with highs in the 70s to upper 80s. After a moist start to the day, dry conditions will prevail in the afternoon again.
